A stunning, comprehensive collection of short stories, poetry, recollections, and drawings by Singaporean writer Joyce Chng.

By one of the most ambitious and engaging SFF writers today, *Wolf's Path* is sure to delight you with its evocative prose and compelling ideas.
—Bryan Thao Worra, author of *American Laodyssey*

From piratical adventures on the high seas to worlds destroyed by climate change and resurrected through sheer will, from prose to poetry to autobiography, this lyrical collection is a celebration of the queer, the primal, and the sensory. Chng is a masterful storyteller, weaving together the rich cultural tapestry of Singapore with literary prose and fresh interrogations of genre fiction. *Wolf's Path* is a howl of triumph.
—Rachel A. Rosen, author of *Cascade*

Joyce wonderfully creates stories that expand and question perspectives, with characters that can be as sharp as claws and soft as paw pads. Each story leaves us with catalysts for reflection, growth, and hope.
—Dhiyanah Hassan, artist

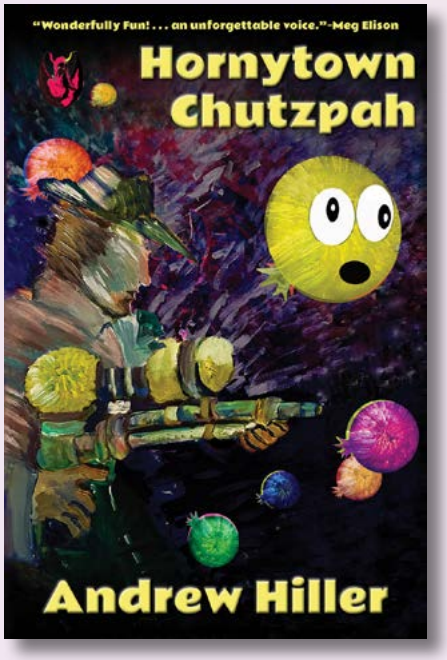

A collection that embraces the changing nature of the writer over their career: from their earliest published work, through to very recent pieces. Too often white men get collected early in their careers and everyone else just . . . doesn't. Chng's voice is an example of one that should be highlighted and celebrated.
—Alexandra Pierce, editor of *Speculative Insight*

Wolf's Path is a fascinating exploration of how others use our differences against us, and how our differences ultimately help us find our place in the world. Chng excels at creating unique, relatable characters who will pull you in and stories that will change your perspective. Highly recommended, especially for those who feel they're stuck between worlds—real or imagined.
—Stewart C Baker, author of *The Butterfly Disjunct*

Hornytown Chutzpah

Andrew Hiller

Sometimes, it's a job for a Dick.

Sol the Wise Guy has stayed out of Hornytown for a hot minute. But when a sexy sheyd sweeps into his office saying she's been framed for murder, well, sometimes a shmendrick's gotta step up to the task.

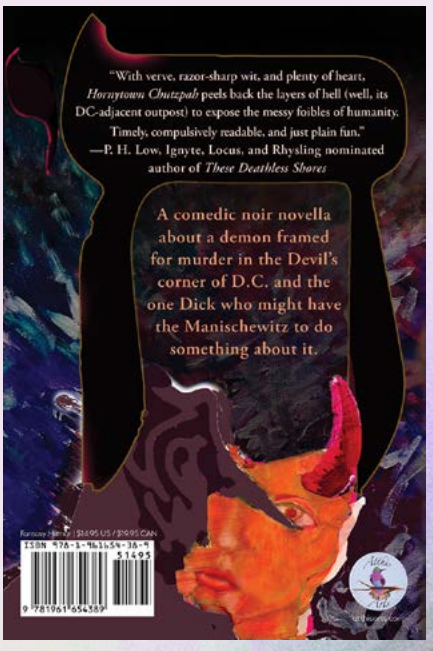

A comedic noir novella about a demon framed for murder in the Devil's corner of D.C. and the one Dick who might have the Manischewitz to do something about it.

Cover Illustration by Andrew Hiller.

"The plot is engaging, there are twists, yet everything holds up. The characters have a lot of emotional depth (human and demon alike) and there are moments of profound understanding and serious reverence. Worth your time even if you've read plenty of this subgenre." —Daniel Haeusser, contributing reviewer, Skiffy & Fanty

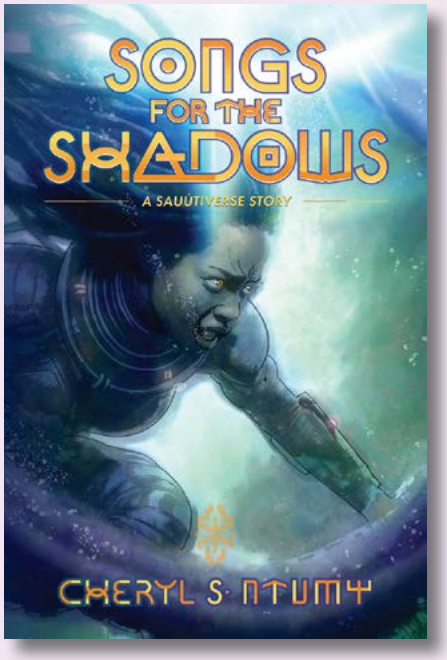

"Like a screwball comedy, *Hornytown Chutzpah* knows exactly when to hit the comedy beats and when to become more serious. And it knows when to hit you in the heart and soul." —Paul Weimer, Multi Hugo Award winning genre writer, nerds of a feather, flock together

Songs for the Shadows

Cheryl S. Ntumy

Your feelings are of no consequence.

Shad-Dari has escaped her past, her dreams now in reach. An excavator of the valuable old sounds of Órino-Rin, she steals tiny, unheard fragments of the sacred songs to erase the painful echo of her home planet, Ekwukwe. In one rebellion too far, she sets off a chain of events that severs her from time itself, forcing her, without another way forward, to face her past.

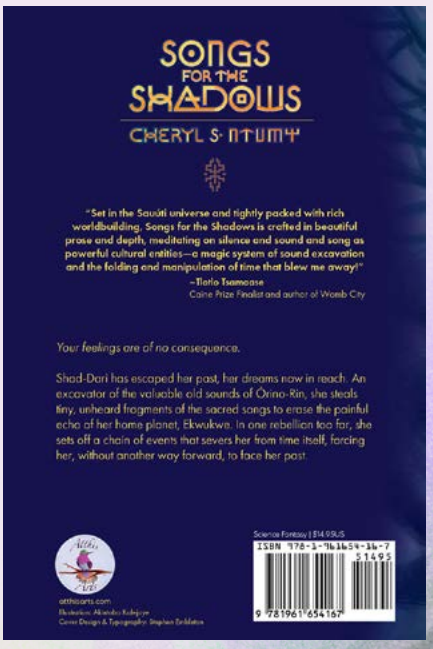

Cover Illustration by Akintoba Kalejaye.

Cover Design and Cover Typography by Stephen Embleton.

"Crafted in beautiful prose and depth, meditating on silence and sound and song as powerful cultural entities—a magic system of sound excavation and the folding and manipulation of time that blew me away!" — Tlotlo Tsamaase, Caine Prize Finalist and author of *Womb City*

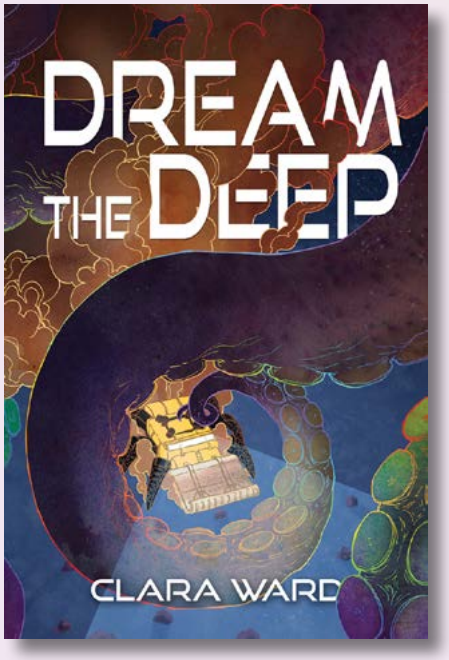

"I was mesmerized by the rule-breaking, self-inventing Shad-Dari who, in seeking to drown out the echoes of her past loses everything she thought she needed." — Gothataone Moeng, Whiting Award winner
